

The **S920** is a secure, stylish and mobile payment terminal. It connects to the network via a GPRS/2G data sim card or Wi-Fi. (You will need to call us to enable setup via Wi-Fi).

Complete these simple steps to get your terminal connected, ready to take a payment.

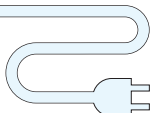

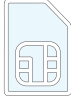

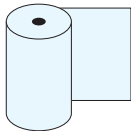

STEP ONE: Switch on

Turn on the terminal by holding the  button on the terminal. The terminal will go through a start up sequence.

STEP TWO: Connect to the Paymark network

1. Your terminal arrived with a printed receipt still attached. If the receipt is short and has your business name on it, you are now all ready to go.
2. If not, you'll need to call us before you can transact. Call our technical support team on **0800 476 278** and we will get you ready to take payments.

What's in the box*

			
S920 Terminal base unit	Charging cable	Sim card (installed)	Return courier label
	*If this is a replacement terminal you may need to use the cables from your existing terminal.		
Pre-loaded paper roll			

Charging the terminal

You can charge the terminal by plugging it into the power. On mains power with the charging accessory provided it will take approx. 3 hours for a full charge. You can also use a standard USB car charger with micro USB cable to charge the terminal while you're on the go. There is a mains powered charging cradle accessory available depending on your needs. Please Contact our team on **0800 476 278** if you would like to order this.

Now you're all ready to take payments **Flip this card over** for the Quick Reference Guide which tells you how to perform key functions in standalone mode.

Integrated EFTPOS?

If you are integrating your terminal with your Point of Sale (POS) or Electronic Cash Register (ECR), the idle screen will display the interface mode (rather than the idle screen as shown on the reverse of this guide).

You should now follow the steps on your integration setup guide included in the box.

- Swipe **MERCHANT REFUND CARD** and enter **REFUND PIN**
- Type in **REFUND** amount and press **ENTER**

Remainder of transaction is as per steps 3-6 of **PURCHASE**

Basic troubleshooting

Is your terminal connecting to Paymark?

You can try performing a manual logon into the Paymark network. To perform a manual logon, press **ALPHA > LOGON**.

It will print a receipt with 'Merchant Logon Accepted' if it is connected to Paymark.

If it displays transmission error, give our technical support team a call.

Has your printer paper been installed properly?

Check the paper rolls have been put in the right way up. Make sure the printer cover is tightly closed.

Loading Paper

- Engage printer cover release flap to open printer bay.
- Remove existing roll core and place new roll in printer well. The tongue of paper should be feeding up from underneath and out towards the top of the terminal.
- Pull out tongue of paper so it is coming out of feeder and close the printer cover.
