

Thank you for choosing Smartpay

Getting Started Guide | Smartpay PAX S80 + S300 Combo

The **S80 and S300** PIN pad combo is a secure, robust and customer friendly approach to transactions. It utilises a base terminal for the merchant and a PIN pad for the customers.

What's in the box*

		
S80 Terminal base unit	S300 PIN pad terminal	Power supply
		<i>*If this is a replacement terminal you may need to use the cables from your existing terminal.</i>
Ethernet and/or phone cable	Return courier label	

Ports to look out for on the terminal

Complete these simple steps to get your terminal connected, ready to take a payment.

STEP ONE: Plug in

You might find it easiest to have base unit face down on the counter to do these steps.

1. Put the round end of the power cable into the **POWER** socket on the terminal
2. Plug in the cable from your S300 into the **PIN PAD** port
3. If you're using a broadband or fibre internet connection, plug your ethernet cable into the **LAN/RS232B** port

If you use a dial-up internet connection or dial-backup, plug the phone cable into the **LINE** port

4. Tuck the cables into the recessed cable tidy guides on the bottom of the base unit

STEP TWO: Switch on

1. Plug in the power supply to the electrical power socket.
2. Turn on the power at the wall, then push and briefly hold the  button on the terminal. The terminal will go through a start-up sequence.

STEP THREE: Connect to the Paymark network

1. Your terminal arrived with a printed receipt still attached. If the receipt is short with your business name on it, you are now all ready to go.
2. If not, you'll need to call us before you can transact. Call our technical support team on **0800 476 278** and we will get your ready to take payments.

Now you're all ready to take payments **Flip this card over** for the Quick Reference Guide which tells you how to perform key functions in standalone mode.

Integrated EFTPOS?

If you are integrating your terminal with your Point of Sale (POS) or Electronic Cash Register (ECR), the idle screen will display the interface mode (rather than the idle screen as shown on the reverse of this guide).

Please refer to our integration set up guide on our website smartpay.co.nz/guides

Basic troubleshooting
<p>Is your internet connection working?</p> <p>Check whether your other devices have access to the internet and your modem is working.</p> <p>If you use a dial-up connection, check that your phone lines are working.</p> <p>Is your terminal connecting to Paymark?</p> <p>You can try a performing a manual logon into the Paymark network. To perform a manual logon, press ALPHA > LOGON.</p> <p>It will print a receipt with 'Merchant Logon Accepted' if it is connected to Paymark.</p> <p>If it displays transmission error and your internet and phone line is working. Give our technical support team a call.</p>

Loading Paper
<ol style="list-style-type: none"> 1. Engage printer cover release flap to open printer bay 2. Remove existing roll core and place new roll in printer well. The tongue of paper should be feeding up from underneath and out towards the top of the terminal. 3. Pull out tongue of paper so it is coming out of feeder and close the printer cover. <p>Order accessories and paper rolls for your terminal at smartpay.co.nz/store</p>
