

CurrencySelect EFTPOS

Allow international customers to pay in a currency they know.

CurrencySelect EFTPOS provides security for international customers by allowing them to pay in their own currency. CurrencySelect is designed to help your business sell goods and services to overseas visitors, enhancing the shopping experience for your customers and earning you commission to reduce merchant service fees by receiving a rebate of 0.8%*.

How does CurrencySelect EFTPOS work?

How does CurrencySelect EFTPOS work on the PAX terminal?

1. Merchant enters purchase amount
2. Customer presents card and selects account
3. Customer can choose from the currency list
4. Local and chosen currency amount and rate is shown on the screen
5. Customer confirms currency and completes transaction

Benefits of CurrencySelect EFTPOS

- Enables your international customers to pay in a currency they know and trust
- You're paid in New Zealand dollars, and your international customer are debited in their own currency, providing certainty of the purchase amount
- You make commission* for providing the service, thereby reducing your merchant service fees*
- Optional online reporting tool allows you to search for transactions and download reports in Excel format

What do I need to get CurrencySelect EFTPOS

- A Smartpay PAX EFTPOS terminal loaded with CurrencySelect. Choose from our one piece, two piece or mobile terminal.
 - Our terminals will do both your payments and currency conversion.
- A BNZ merchant account – visit www.bnz.co.nz for more information on how to get a BNZ merchant account or call 0800 275 269

Note: If a transaction is refunded you will carry the risk for any currency exchange rate movement since the original transaction. Customers are refunded the exact amount they paid.
